PHILOSOPHY AND GOALS OF THE SERVICE

Philosophy

The Tallygaroopna Primary School Council believes that every family has the right to quality care that recognises and values the child as an individual and is responsive to the needs of families. We value the importance of play and the role it has in middle childhood development.

The setting therefore needs to be a warm, secure, caring environment where the development of independence and self-confidence is fostered, and creativity and individuality are encouraged. The partnership between parent and carer is invaluable in the care and outcome for the child.

Our program is flexible and responsive to the changing needs of the children and their families and is provided in a way that recognises and is supportive to each family's values and cultural and religious needs.

Goals

The Program aims to:

- Provide a safe, warm and caring atmosphere for children
- Provide a wide variety of stimulating and interesting activities that cater for the needs of individual children
- Promote warm and friendly relationships, with staff children and parents
- Encourage child, staff, parent and community involvement in the development of the program
- Conduct a school age child care program consistent with the policy and guidelines contained in the National Standards for OSHC

ANIMALS

1. All animals in the program (whether visiting or permanent) will be kept clean and healthy with regular worming and vaccination where appropriate.
2. Staff must ensure that play areas within the program are free from animal hair.
3. Animals must be kept in a separate area from children, whether inside or in the yard. A protected run, whether inside or out, must be maintained to securely separate the animal and the children. All fencing must restrict penetration by small fingers.
4. Any direct contact with animals must be closely supervised by the staff and be under their control eg, holding rabbit or guinea pig etc.
5. Staff are to ensure that children wash their hands thoroughly after touching the animals. On the occasion that animals are in the room, staff also must ensure that tables are disinfected before any food is served.
6. Staff must ensure that garden areas, including sandpit, are kept free from animal excrement.
7. Staff must ensure that animal food, bowls and litter trays etc. are inaccessible to children and are kept in a hygienic condition.
8. Birdcages are not to be kept in food preparation areas. Feathers, droppings and seeds are to be cleared away at regular intervals. Cages are not to be cleaned while children are in the program and should be wet down before cleaning.

BEHAVIOUR SUPPORT FOR CHILDREN

1. The School Conduct Code remains in force during the time of the program.
2. Where, over a period of time, a child's behaviour warrants special attention, the Co-ordinator, in consultation with the principal, shall ensure that consultative, problem solving measures designed to improve the behaviour are put in place. The parents and the child (where appropriate) will be given the opportunity to meet with the principal and the Co-ordinator and will be consulted from the outset. This consultation process and the measures decided upon will be allowed to operate over an appropriate and reasonable period of time.
3. Where these measures have not improved the situation, the principal will advise the School Council president of the situation. The principal will convene a meeting of the Co-ordinator, the child's parents and the child (if appropriate). The parents may also invite a person of their choice to support them. The School Council president, or his/her nominee, may also attend the meeting. The meeting will consider :
 - the child's behaviour;
 - the strategies being implemented by the program staff to encourage the child to improve his/her behaviour;
 - the possibility of exclusion should the behaviour continue; and
 - what alternative child care arrangements can be made.

This consultation process and the strategies decided upon will also be allowed to operate over an appropriate and reasonable period of time.

4. If the above strategies fail to achieve an acceptable change in behaviour, and the principal, in consultation with the Co-ordinator, believes that the child should be excluded from the program, normal school procedures should be followed.
5. Occasionally it may be necessary to instantly remove a child from the program session where the child :
 - behaves in such a way as to constitute a danger to the physical and emotional health of any staff member or other child;
 - consistently and deliberately fails to do as they are asked by a staff member; and/or
 - is in such a condition as to constitute a health risk to any staff member or other child.

In such instances the parents or emergency contact will be contacted to immediately collect the child.

BOOKINGS AND CANCELLATIONS

1. Numbers in the OSHC Program are limited to 15 places at any one time.
2. Parents can enrol their child by completing an Enrolment Form available at the school office or through the Coordinator. Children cannot commence in the Service unless an enrolment form has been completed. This rule may be waived in exceptional circumstances, at the discretion of the Principal.
3. Parents can book children in either as a permanent or casual booking:
 - A permanent booking is an ongoing position kept available in the program and must be paid for even if the child is absent (excursions, school camps, sleepovers, and holidays) during the school term. Permanent bookings are not charged when there is no school operating eg. curriculum days, school holidays
 - Casual bookings are for positions made available on a daily basis and are subject to availability
4. Places are allocated according to Priority of Access Guidelines which are set by the Commonwealth Government. Therefore places shall be allocated according to the following:
 - Priority 1: a child at risk of serious abuse or neglect
 - Priority 2: a child of a single parent who satisfies, or of parents who both satisfy, the work/training/study test under Section 14 of the A New Tax System (Family Assistance) Act 1999
 - Priority 3: any other child

Within these main categories priority should also be given to the following children:

- Children in Aboriginal and Torres Strait Islander families
- Children in families which include a disabled person
- Children in families on low incomes
- Children in families from culturally and linguistically diverse backgrounds
- Children in socially isolated families
- Children of single parents

Tallygaroopna Primary School children shall also be given priority over children attending other primary schools within the priorities and categories set down in the above guidelines.

Where there are no vacant places, a child placed under a lower priority may be required to alter their booking to provide a place for a higher priority child eg. Priority 1. This may involve reducing the hours/days of care or shifting the day of care, or utilising casual bookings only. **Families will receive 2 weeks notice should this have to happen.**

5. Children can attend the program after sports training and after school activities.
6. Permanent bookings can be made by:
 - indicating times and days on the Enrolment form (permanent bookings)
 - notifying the Coordinator of the OSHC Program
 - contacting the school by telephone
7. Casual bookings can be made by:
 - notifying the coordinator of the next booking as you collect your child from the program
 - ringing the school on (03) 5829 8264 before 3:00pm on the day of attendance
 - by sending a written note with a school child

Casual bookings are subject to availability.

8. The OSHC Program cannot accept verbal messages from children in relation to bookings/cancellations.
9. It is the parents' responsibility to keep the Service up to date with all family details including changes to contact numbers and addresses, emergency contacts, medical and custody details.
10. Parents will be required to complete a new enrolment on an annual basis.

Cancellations:

1. The school is to be contacted by the parent/guardian in the instance of a child's absence. If the child is expected in the program and hasn't arrived, the staff member will contact the school office by phone and a staff member will ascertain the child's whereabouts.
2. Permanent bookings must be paid for even if the child is absent. Where a parent wishes to cancel a permanent booking on an ongoing basis **1 week's** notice shall be required.
3. Casual bookings can be cancelled by **midday on the day of booking**, otherwise fees for the booked time shall be charged.

Allowable and Approved Absences

1. Allowable and approved absences only relate to situations where a child is absent and is charged for a booking eg. permanent booking or where a child does not arrive for a casual booking. These are based on the Commonwealth's Guidelines for CCB (Childcare Benefit).
2. Parents are granted 40 **allowable absences** per child per financial year. Therefore their child can be absent for any reason on 30 occasions. Once a parent exceeds 40 allowable absences they will be charged a full fee (with no CCB deducted) for any further absences in that financial year (unless it is deemed an Approved absence).

CHILD PROTECTION

1. Staff will familiarize themselves with the aspects of reporting child abuse, as published by Child Protection Victoria.
2. Staff will comply with the Children, Youth and Families Act 2005 (CYFA05) and other relevant legislation, with the focus on the best interests of the child, including appropriate development, promoting stability, being aware of cumulative harm and keeping aboriginal children connected to their community and culture.
3. Staff will document observations, including date and time, in regard to any suspected child abuse incidents.
4. Staff will take any issues to the Coordinator, who will then refer to the Principal or a senior member of the teaching staff who will make the judgment about referring families to Child FIRST, should they have reason to believe that a child and/or family is vulnerable, but the concerns have a low to moderate impact on the child and the immediate safety of the child is not compromised.
5. Staff will take any issues to the Coordinator, who will then refer to the Principal or a senior member of the teaching staff who will make the judgment about calling Child Protection Victoria. If they have reasonable grounds to suspect that any child has been abused; physically, sexually, emotionally, or suffering neglect and a report is made the following information will be disclosed:
 - The child's name, age and address
 - Reasons of suspecting abuse
 - Assessment of immediate danger to the child
 - Description of any injury or behaviour observed
 - Current whereabouts of the child (if known)
 - Any other relevant information about the child or family
6. Contact number for notification is:

8. Where Child Protection has requested to interview the child at the program, the staff member shall immediately contact the Principal or senior teaching staff member for guidance.

To consult about possible abuse and report when necessary is the responsibility of every professional. Legal protection (Children and Young Persons Act, 1989) is provided to those who report abuse to the authorities on the basis of reasonable concern. A professional who makes a notification with the best interests of the child in mind is protected from any legal action for defamation. A notification of suspected child abuse does not constitute a breach of professional ethics.

FAMILY LAW

1. Staff will undertake training (as available and appropriate) for high-risk situations.
2. Parents/Guardians are required to inform the Service of any orders under the Family Law Act, in relation to children attending the program.
3. Parents/Guardians must provide the program with a current copy of orders, to ensure that the staff can legally abide by these orders.
4. Parents/Guardians should provide a list of people who are allowed contact with the child.
5. Parents/Guardians should inform the program immediately if they believe a court order may be violated.
6. If a person not entitled under any Family Law Act Orders arrives to collect the child (and the staff have a copy of the order), staff will advise the person that they have a legal obligation to refuse to hand over the child to that person.
7. If that person insists on taking the child, the staff member should:
 - Discourage the person and explain the program's policy and legal obligations.
 - If possible, contact the parent/guardian who has parental responsibility.
 - Make every effort to contact the police for attendance before the child is removed.

 - Notify the Program Committee or Principal with all relevant details as soon as circumstances allow.
9. In extreme circumstances staff may need to consider emergency procedures such as those for evacuation/hostage situations etc. (Refer Emergency Procedures Policy).

Custody/Court Orders

1. Parents

All parents have powers and responsibilities in relation to their children, which can only be changed by a court order. Lawful authority is not affected by the relationship between the parents, such as whether or not they have lived together or are married. A court order, such as under the Family Law Act, may take away the authority of a parent to do something or may give it to another person.

2. Guardians

A guardian of a child also has lawful authority. A legal guardian is given lawful authority by a court order. The definition of "guardian" also covers situations where a child does not live with his or her parents and there are no court orders. In these cases the guardian is the person the child lives with who has day to day care and control of the child.

3. Court Orders Relating To The Child

Parents should notify the program if there are any court orders regarding the powers and responsibilities of the parents in relation to the child or access to the child. If there are any such orders, they should bring the original court order/s for staff to see and a copy to attach to the enrolment form.

Parents should also notify the program if these orders:

- a) Change the powers of a parent/guardian to:
 - authorise the taking of the child outside the service by a staff member of the service
 - consent to the medical treatment of the child
 - request or permit the administration of medication to the child
 - collect the child AND/OR
- b) Give these powers to someone else.
