

WATERWAYS DAY

On Thursday 16th of March we went to the WaterWays day and we learnt about birds, bugs, frogs, fisheries, forest firebregade and cultural awareness.

BIRDS: first we had birds and we learnt about some birds we learnt the sounds of birds like the boobook and the kookaburra. We then has to try and make the sounds they made.

BUGS: we also learnt about bugs including spiders, centipedes and beetles and we saw heaps of bugs of all types and sizes it was creepy but awesome. We learnt that bugs can make very good soil in a few days and they are very useful.

FISHERY'S: we also spoke to a man from fisheries. We learnt about fish and some endangered species and we got to learn about what a good size is and why it is good to have the bigger fish.

FROGS: we also learnt about frogs. It was cool. We got to learn their calls and we had to make the sounds they made. I was a poplebonk and I made the sound bonk.

CULTURAL AWARENESS: another thing we learnt was about cultural awareness we got taught the stuff people that are indigenous and what they would eat and what clothes they wore and some of their benefits.

FIRES: also we did fires and we learnt how to have a fire safely and when is the right time to have a fire and what you need to have a safe fire
