SCHOOL VALUES - RESPECT, HONESTY & INCLUSION

News from the Principal's Desk

Hi everyone,

Hard to believe that there is only 2 weeks of school left for the first semester. The term has really flown by quickly and many fun activities have been implemented over the last few months. Last Friday, all teaching staff spent a worthwhile day at Mooroopna PS, learning about Mathematics engagement in regard to numeration and place value. Everyone found this very relevant and we look forward to being able to implement some of these activities in classrooms over the next few months.

At present, we have had no real interest in the Solar Boat Challenge, but I would highly recommend this opportunity for all of the senior students in the school. Last year, we had many students participate in this program and they found this opportunity a lot of fun and enjoyable. It is very hands on, so get in and have a go if you are interested – see Mrs Thomas.

During the last week of school the students in Grades 3-6, along with the Grade 2 girls will be participating in a Dance Festival at the Shepparton Basketball Stadium and there is an expectation that all children will attend this afternoon. We have only had a small number of permission forms back for this afternoon, so please reinforce this fun filled activity. Mrs Haberfield will be attending this day now with Mrs Wallace - **change**. Permission forms went home last week and there will be a small \$2 charge to cover the bus.

Karen will be away tomorrow at a PD session all day. She will be in the office until Thursday this week, if any matters need addressing. I hope to catch up with some of our families during the week at the Munch N Crunch on Thursday. On a personal note, we are not far away from moving into our new house and I will try my best to make this not too disruptive for our whole school community – exciting times ahead!!!!

David Brodie (Teaching Principal)

STUDENT LED CONFERENCE DAY – Wed 26th June

Quotes about Life – How True!!!

"It is better to be defeated on principle than to win on lies." Arthur Calwell

*"It's the process of striving that makes us grow; not necessarily the result. Running against the wind makes us stronger than running with it."
Herb Elliot, Australian Olympian*

"The best things in life are not things!"

"We are not responsible for the programming we receive as children; as adults, we are 100 percent responsible for correcting it." Ken Kayes

"Obstacles are things a person sees when they take their eyes off their goals." E. Joesph Cossman

"The skill of self-control takes guidance, practice and frequent failure." Wilson McCaskill

"We make a living by what we get, but we make a life by what we give." Winston Churchill

"The best way to cheer yourself up is to cheer someone else up." Mark Twain

"Generosity is giving more than you can and pride is taking less than you need." Kahlil Gibran

"The most wasted of all days is one without laughter." E. Cummings

STUDENTS OF THE WEEK – Term 2 / Week 9

All students received a certificate and also a free icy pole voucher to use this term.

Prep / Grade 1 Terrific Turtle's

Dan

For the persistence he showed in his story writing. We all enjoyed his book called 'Rascal goes to China'. Well done Dan.

Grade 2/3/4 Freaky Frogs

Stephanie

For the terrific persistence she shows in her schoolwork and her excellent getting along and communication skills. A fabulous effort Steph!

Grade 5/6 Mad Monkeys

Teagan

For her recount on the Urban Camp and the way that she was able to plan and organise her writing without being distracted.

Values Vault was awarded to – Mathew (Week 9)

**Very soon we are hoping to introduce weekly values awards which focus on
Respect, Inclusion and Honesty**

1. Hume Region Cross Country

On behalf of the whole school community, good luck to both Jordan and Harvey who will have an opportunity to represent the school at the Hume Region Cross Country on Wednesday 19th June at Broadford. This is a wonderful opportunity and we all wish them luck in their endeavours and know they will do themselves and their families proud. We look forward to hearing about their day.

2. Woorabinda Camp

A big thank you to all of the families who have returned application and medical forms for the Woorabinda Camp. This is scheduled from Monday 29th July until Friday 2nd August. Further travel arrangements will be made available as soon as possible. It would be appreciated if the cost for the camp could be paid by Friday 19th July. At this stage, no teachers from our school will be attending this camp, but teachers from other local schools will be attending. Hopefully, details regarding this will be available soon as well. Mrs Haberfield will be attending the Grade 3/4 Camp to 15 Mile Creek in September.

3. Dance Festival

Next Thursday 27th June, students in Grades 3-6, along with the Grade 2 girls will attend the Dance Festival at the Shepparton Basketball Stadium. We will have an early lunch and leave school at 1pm and then travel into Shepparton by bus. The festival begins at 1.30pm and concludes at 2.45pm. We should return back to school by about 3.10pm. **Permission forms went home last week and the cost for the day will be \$2 to cover the cost of the bus.** Parents are welcome to come along if they wish and attend the festival – just let us know if you would like to get on the bus.

4. Grade 5/6 - changes

The final weekly test (spelling / tables) will **now** be held on Friday 21st June. The Big Test will also **now** be held on Tuesday 25th June, so students should start preparing for this now. The Term 2 reward day will be held on Friday 28th June – last day of term. We will either watch **Phar Lap or Gallipoli**, which the students will vote on. If any parents have any issues with these films being shown could you contact Mr Brodie ASAP please.

5. Interschool Sport

Our school will be participating in Interschool Sport in Shepparton and Mooroopna on Friday 26th July. We anticipate sending teams for Football and Netball. This year, we will be combining both our netball and football teams with Congupna PS. At this stage, Mrs Haberfield will probably coach the netball team and we hope that Mr Pettigrew from Congupna PS will be able to coach the football team. This will allow for Mr Brodie to float between the two venues. If any parents can assist in any way it would be greatly appreciated. More details will be available early next term, but there is a strong possibility that some Grade 3 or 4 boys may be able to participate as well to help with fielding a football team – random draw.

6. School Production

A reminder to families that our School Production “Kids in Space” is scheduled to be held on Wednesday 11th September. There is an expectation that all children participate in some way with this performance as it is perhaps the highlight of the school year. Full Rehearsals will begin in Term 3. We have decided to go ahead with the DVD recording of the night after a lot of interest was shown from our school community. Details will follow in the near future.

Parents' Club

A Parents' Club meeting will be held on Wednesday 17th of July after school in the BER Project Room. All welcome.

7. Scientist in Schools Program

To complement our Science Specialists Program, next term we will be starting our Scientist in Schools Program. This initiative is designed to support long-term, ongoing professional partnerships between volunteer teachers and volunteer scientists. As a result, we will be working with Allie Ford during a couple of Skye sessions in term 3 which are planned for 19th July and 13th September. Both sessions will begin at 10am and go for about an hour.

Website - <http://www.scientistsinschools.edu.au/downloads/PartnershipSupportMaterials/SupportMaterials.htm>

A brief bio on Allie is provided below:

I studied astrophysics and chemistry at Keele University in the UK. I loved both subjects, but the astro called to me more strongly so I went on and did a PhD at Keele, though I kept up with the chemistry by using spectroscopy (looking at colours/wavelengths of light) to determine the compositions of stars in clusters (the Pleiades and Hyades, amongst others) as well as old individual stars in the halo around our Galaxy.

I did a postdoctoral placement at the Open University (UK) for a year, continuing the research, before moving to Monash for a 2-year postdoc contract (that was 10 years ago, I'm still trying to get home!). I quickly learned that research wasn't really my cup of tea; I'm a communicator and teacher, so I focussed on getting involved with lecturing. I developed an observational astronomy third-year unit, as well as having taught into all three years of undergraduate astronomy, supervised an honours student, and spent the better part of the decade teaching a Life in the Universe unit, which I loved. I also tutored statistics for scientists, and a core science second-year subject with a focus on communication and information research.

A year ago I got tired of the two-tier system in universities, with all the emphasis on research and teaching being the poor cousin - it was always a fight to be allowed to teach well, rather than just teach content and eventually the fight wore me down. I'm still passionate about science and science communication - I'm a panelist in a show called 'Science of Fiction: Doctor Who' which has been at Adelaide Fringe and opened National Science Week in Canberra last year. I don't get to do quite as much science as I'd like these days, but I'll still talk about it and educate people about it at every opportunity! I currently work as a Learning Skills Adviser at Monash. I'm now based in the library, and spend much of my time working with students about different study skills (everything from how to understand assignment instructions to putting references in the right places, academic writing, time management and exam revision). I work with students from various aspects of health care (largely nursing, but also paramedics, occupational therapists, physios and occasional doctors), so there's still quite a lot of science understanding to be had!

This will be my fifth SIS partnership (I actually have three virtual partner schools at the moment!) so I've tried all sorts of different things and have a range of odd resources and ideas, depending what aspects of science you and the students want to explore :)

I'd love to learn more about your school and students, and to work out some things we can do together.
allie.ford@monash.edu

Scientists
in Schools

8. School Reports / Student Led Conferences

School Reports will go home to families in sealed envelopes next Monday 24th June. Teachers spend a huge amount of time completing assessments and writing written comments so please read these carefully in preparation for the Student Led Conferences which will be held on Wednesday 26th June. The aim of this day is to give all students an opportunity to discuss their progress so far at school with staff and families. **Therefore, students will be required at school for the duration of their interview.** This day links to our Kidsmatter theme and allows us to continue to build on the relationship which is necessary for both staff and parents. We hope to see all children attend this day. If this day does not suit, an alternative arrangement may be made.

9. New Enrolments - 2014

We are now looking at planning enrolments for new students for next year. Enrolment Packages can be collected from the school office and an informal tour of the school can be requested if needed. Feel free to contact Mr Brodie any time.

10. AASC Program

The final session for the term finished today. A huge thank you again to Gillian O'Brien and Andrea Walker for being our wonderful supervisors again. Your support is greatly appreciated. Plans for the program for Semester 2 are still being finalised and will be made available ASAP. We are hoping to implement the following activities – Cricket, Taekwondo, Golf and Touch Footy. Term 3 activities should begin on Monday 29th July.

A free icy pole voucher is awarded each week out of a lucky draw. Last week's winner was – Jade (week 9)

11. Solar Boat Challenge - Science

We are seeking interest from senior students, and adults, to be part of the Model Solar Boat Workshop / Challenge again this year. This program is part of our Shepparton Small Schools Cluster Science Specialist Initiative and a small group of senior students from each school will have a wonderful opportunity to participate. Initially, we are seeking interest from students to both attend a workshop during term 3, and then to compete at Scienceworks in Melbourne on Sunday 20 October.

At the workshop groups of up to 6 six students from each school will be working as a team to design, build and race their boat all on the one day. Parent participation is also required to assist students both at the workshop, and to guide the students in preparing/monitoring/adjusting the boat for and on the Challenge Day held at Scienceworks in Melbourne.

Each team will require a co-ordinating adult.

A bus will be provided to ensure all participating students can attend. There is no cost for students and their families to participate in the Model Solar Boat Challenge.

Once interest is established, a workshop date and location will be set and interested students will then need to apply by completing a form and returning it to their class teacher.

More information can be obtained by asking your Science Specialist, either Mr Toy or Mrs Thomas at your school, and by accessing the Victorian Model Solar Boat Challenge at <http://www.modelsolar.org.au/>

Student Led Conference Interviews

Parent/Teacher Interviews will be held on Wednesday, 26th June starting at 9am and concluding at 5pm. Please indicate on the form below what time suits you. Times will be allocated on a first in first preference basis. If the day / times do not suit you, please contact the school to make an alternate arrangement.

✂.....

NAME:.....

Yes I/we would like to attend the parent/teacher/student interview session with you on Wednesday, 26th June.

My preferred time isam/pm.
