SCHOOL VALUES - RESPECT, HONESTY & INCLUSION

Friday 7th August, 2020

Dear Parents & Carers,

On Monday 10th August, our students will recommence with their "remote learning" using Webex and Class Dojo.

We have thought long and hard about implementation and we would like to make this experience for all of our school community more effective by making some minor changes.

We will now be running class Webex sessions 3 times a week with the intention of all sessions being educational rather than social. It is an expectation that students attend these sessions so that learning can continue throughout term 3. Specialists Webex sessions will continue – see timetable on page 3.

Classroom teachers will again be providing an overview of tasks to complete on specific days. Due to feedback, class teachers will be providing more hard copy work and learning packs will be available to pick up each Sunday from 5pm on a weekly basis with the expectation for students to complete the tasks on set days.

Please carefully read the expectations on the following page and seek clarification from classroom teachers if required.

The following information may change once we receive the Education Department's Operational Guidelines. Information will continue to be provided on Skool Loop as required.

Remote Learning 2.0 Expectations

The information below outlines changes we have made to make our remote learning program more effective. We appreciate feedback given by families and hope that more hardcopy work makes this experience more streamlined for everyone.

Thank you for assisting us to support our fantastic students.

Webex Sessions

- Class Webex sessions now occur three times a week.
- Specialist Webex sessions will begin in week 5.
- Sessions will be academically focused rather than social.
- During these sessions, students may complete work with their teacher.
- Students should attend all Webex sessions so that teaching and learning can continue more effectively.

Hardcopy Work

- Each week, hardcopy tasks need to be collected from the class tubs for all students.
- Tasks will be available from 5pm each Sunday for the following week.
- The previous week's work is to be left in the **Returned Work** tub so that staff can view work completed. This will also assist with appropriate planning for future lessons. The Returned Work tub will be in the Car Park (wooden seat) or in front of the office.
- As much as possible, tasks should be completed on the specified days so that Webex sessions are purposeful and building on previous work.

Display Folders, Workbooks, Books

- All students have a display folder to keep their work organised at home. They also took home workbooks, scrapbooks and readers/novels.
- These are to stay at home. They will be collected when school resumes.

Attendance

- Parents will continue to email the school by sending only 1 email to tallygaroopna.ps@education.vic.gov.au by 3pm each Friday to indicate attendance for the week. Families may do this before Friday if they wish – please notify via school email if any changes occur (there is no need to use Skool Loop).
- If students do not attend Webex sessions or return hard copy work, this will be followed up by classroom teachers on an individual basis.

Class Dojo

- Staff will continue to utilise Class Dojo regularly between the hours of 9am and 3.30pm on weekdays. They can also be contacted through email.
- Specialist staff will continue to upload tasks onto Class Dojo.

Assembly & Awards

- We will continue our virtual assembly on Webex each Friday at 3pm – 576 739 057
- Classroom teachers will present a **Remote Learning Legend award** each week.
- Parents will be notified a day in advance via Grade Expert and text message from the Principal.
- Recipients will receive their hardcopy certificate and a few surprises in the mail the following week ☺

Remote Learning 2.0 – Timetable

- Expectations – students attend half hour **Monday, Wednesday and Friday Webex sessions** so that face-to-face teaching can occur. Senior classes have two smaller sessions to assist with differentiation.
