

Waterways

On the 26th of March the 5/6's went to the WaterWays excursion. It was held at Dip Bridge. We had a bunch of different activities such as the birds, bugs, frogs, fire brigade, fisheries and cultural awareness.

First we did the birds. We had to guess all of the bird sounds. We talked about all of the native animals in Australia and it was pretty easy guessing the bird sounds.

Then we did the fisheries activity. We learnt about all the native fish in Victoria. First we talk about the Murray Cod then we talk about catfish etc.

Then we had recess. Then we went to the cultural awareness talk about all native animals in Australia. After that we did bugs, we talk about all the bugs we seen all of the bugs underground. We saw spider, millipedes, centipedes etc.

Then we had the fire truck and there was no water left so we only got to go through the truck. We also looked at all the gadgets and rang the sirens and talk through the microphone it was fun.

Then we did the frogs activity. We talked about all different types of frogs and information about them. Then she gave us all 1 card on the card it had the sound that the frog makes and we had to make the sound of the frog and we had to find other people who had the same frog as us it was actually pretty easy.

After frogs we all had lunch. For lunch there were sausages and there was bread and there was a massive lineup. After lunch we did some fishing and we all got a fishing rod and then we picked a spot to fish. Nobody from our school caught a fish. Most of the people from our school got snagged and then we had could not fish for the rest of the day.
